

celebrating over 30 years of service and construction excellence

Edwards Inc. holds an unlimited, unclassified general contractors license, mechanical license (H1, H2, H3 and P) and an unlimited electrical license.

Construction

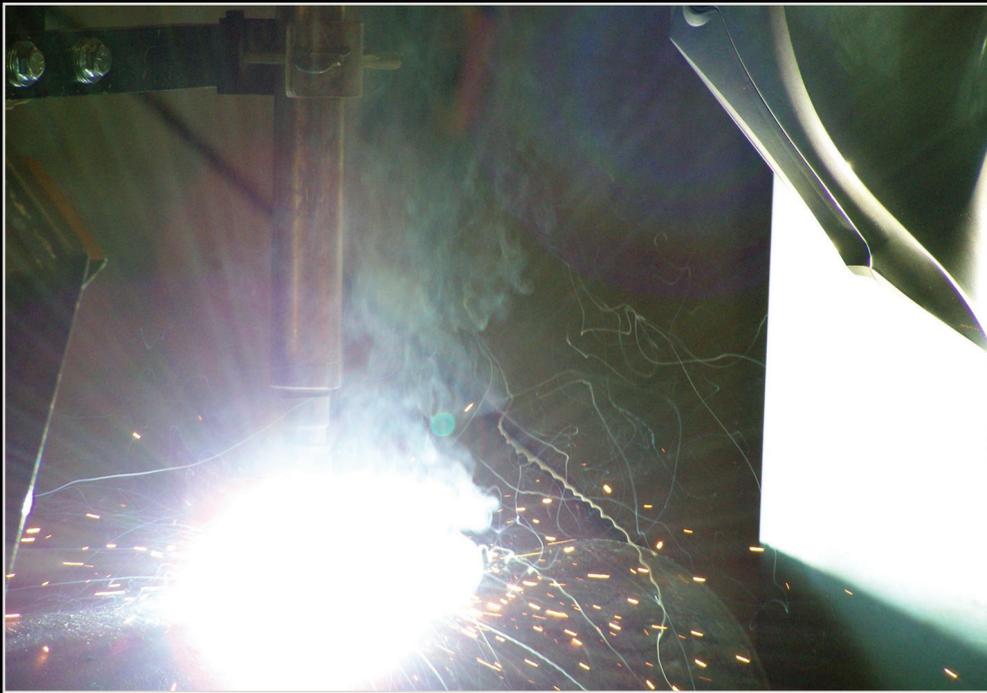

Edwards Inc. is a full-service industrial general contractor providing industrial mechanical, electrical, plumbing and general construction services in the southeastern United States to a variety of industries.

Our services include industrial general contracting, multi-disciplined projects, industrial plant relocation, industrial plant maintenance and specialty plant outages.

Our capabilities include:

- › Process and utility piping
- › Boiler / chiller / cooling tower installation
- › Rigging services
- › ASME code repairs / installations
- › Industrial concrete
- › ASME BPE high purity piping / orbital welding
- › Structural steel / ironwork
- › Industrial electrical / controls / instrumentation
- › UL listed panel fabrication

Edwards Inc. holds ASME A, S, U and PP stamps as well as a National Board R stamp. We are authorized by the National Board of Boiler and Pressure Vessel Inspectors to complete repairs and alterations to code vessels in accordance with the National Board Inspection Code and the Edwards Inc. Quality Control Manual.

Fabrication

Our specialty fabrication shop is equipped for the fabrication of ASME code vessels, carbon steel and stainless steel pipe, heavy ductwork, and large assemblies requiring heavy metal fabrication.

We offer structural steel fabrication, specialty alloy and carbon weldments, custom laser cutting, state-of-the-art CNC plate cutting and punching, CNC controlled pipe cutting, and automated pipe and tube welding.

We specialize in structural platforms, catwalks, machinery bases, dust collectors, conveyors, tanks and specialty items for clients throughout the world.

Pipe Fabrication is performed in our 135,000+ sq-ft climate controlled facility with ceiling heights up to 32 ft and offers state-of-the-art handling, cutting, and welding machinery to maximize production while minimizing cost to our clients.

On the front end, our pipe fab shop has a 4-axis, conveyor-fed pipe cutter that eliminates virtually all weld prep time and is fully capable of keeping all of the welding stations full of precision-cut pipe.

Edwards is set up to consistently produce X-Ray quality welds. There is a specific area reserved for QC, NDE and pressure testing.

We maintain a 28,000 sq-ft environmentally-controlled finishing facility.

Our finishing shop includes a dust-free booth to meet most any industrial and automotive coating requirements.

Our team of experienced riggers and millwrights, combined with an array of custom rigging solutions, including our Versa-Lift 40/60 and specialized lifting beams, are ready to solve your most demanding rigging projects.

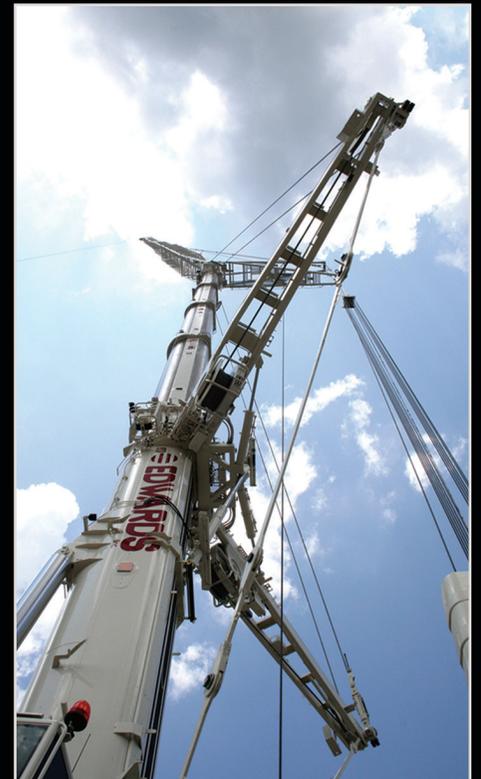

We have the knowledge and experience to produce detailed rigging plans for the most stringent safety and quality standards. We have a vast resume of rigging projects in the pharmaceutical, power and general manufacturing industries.

Crane

Our hydraulic crane service is noted as being the largest in North Carolina. With our multiple locations, Edwards Inc. regularly serves our market with 24-hour availability. Our vast fleet of cranes range in size from 7.5 ton to our flagship 600 ton crane. Our cranes are dispatched from a state-of-the-art computerized communication center that enables us to achieve quicker response times to our customers' requests.

We also utilize Cranimation and 3D Lift Planning systems to specifically plan and simulate critical lifts before mobilization, and our dispatch center assists in developing your crane requirements. These services ensure the timeliness and efficiency of your resources.

Our multiple crane rental locations in North Carolina are utilized to provide customers with 24-hour service.

We are Edwards Inc.

Edwards Inc. is a full-service industrial contractor serving North Carolina, Virginia and surrounding states. We excel in emergency fast-track projects with critical delivery dates. Edwards Inc. provides full-service fabrication, cranes and rigging, piping, electrical, general plant maintenance and ASME Code fabrication and repair.

We serve a variety of industries including: pharmaceutical, food processing, wood and paper products, textiles, general manufacturing, agriculture and power generation located throughout North America.

Safety

Edwards Inc. is committed to the safety and health of our employees and customers. Knowing that our clients value the same type of work environment, Edwards utilizes both a full time safety staff, as well as the services of several independent professional safety consultants.

We also make use of the consultative and technical assistance services provided by the Department of Labor, OSHA Division. All employees are pre-drug screened, given safety orientations and extensively trained. We understand that part of the quality in our work is the customer's confidence that we perform our projects safely.

With locations throughout eastern North Carolina, we regularly serve our market with 24-hour availability. We have the equipment and the manpower to meet your needs.
